SUBJECT: COMART PA's

I am trying desperately to clean up all 'old' Comart PA's....I realize how much of a pain this is, but it extremely important that we follow up....Attached is an update on the status of outstanding project agreements. Can you please review the list, and let me know exactly what the status is of each of your projects? I am having a meeting with finance and legal early next week, and would like to have this nightmare solved.

Please return the attached with handwritten comments as to status by Monday.

Thanks guys.

Nancy
